(2) Dependent Quarters, [REDACTED] - (continued item) - The contractor for the last eight of 16 houses under construction at [REDACTED] has advised that this Agency will be required to pay the full administrative expense of the contractor after 30 June due to the fact that [REDACTED] is terminating its construction contract as of that date. It is estimated that this would increase the cost of the last eight houses by from \$40,000 to \$60,000. The contractor was advised to (a) complete the first group of eight houses (assumed to be 100% complete since they were 95% complete on 31 March 1953), (b) stop work on second group of eight houses as of 15 May 1953, and (c) furnish by 1 June 1953 complete accounting for funds expended to date for first and second groups of houses. Our representatives in the field have been requested to obtain lump sum bids for completion of the second group of eight houses from local contractors. [REDACTED] is in agreement with the above action, and does not object to a 30-day delay in the completion of the houses if we can save the Agency the unexpected additional administrative costs above mentioned.

(3) SR Requirements for Training Site - (continued item) - Representatives of this and SR Divisions inspected [REDACTED], as a possible site for SR training. It was decided that this is not a suitable site due to too many other activities being located in the area. This Division has requested an additional listing of specific requirements before continuing the search for a suitable site.
